The background of the entire page is a light beige or cream color. Overlaid on this background is a subtle, embossed pattern of stone shapes. The pattern includes several large, rounded, leaf-like shapes and semi-circular shapes, some of which are partially overlapping. The embossing is very slight, creating a tactile texture without being too pronounced.

VERA™ High Pressure Laminate

Product Information

Disclaimer

Customers are advised to reconfirm the colour or pattern at the time of ordering. We will not be liable for any claims arising from sample pasting error. Products should be inspected before installation. Should there be any manufacturing fault, our liability will be extended up to the cost of our products only.

All of our products do not originate from the same production batch. The colour of the product may vary from each production batch within accepted tolerance level.

Care Guide

- Use only warm water with clean non-abrasive cloth to remove stains.
 - Use mild household cleanser or detergent to gently wipe with a clean non-abrasive cloth to remove stubborn stains.
 - Avoid using any cleaning agent containing acid, alkali, or sodium hypochlorite to clean laminate.
 - Do not use sharp objects on the laminate.
 - Do not chop or hammer directly on the laminate.
 - Do not place hot cookware directly on the laminate.
 - Exposing the laminate to temperatures above 60°C for prolonged periods may cause damage to the laminate.
 - Outdoor application of the laminate with exposure of direct sunlight, weather conditions, UV rays may alter the colour of laminate surface or may cause damage to the laminate.

VERA™ High Pressure Laminate

Product Information

Certification

Vera™ high pressure laminates are certified with Singapore Green Label, and conform to British Standard for performance properties, appearance, and fire tests. Kindly contact sales representative or office for a certificate or test result.

- **BS EN 438-2: 2016+A1: 2018**
Decorative high-pressure laminates (HPL) sheets based on thermosetting resins. Determination of properties.
- **BS EN 438-3: 2016**
High-pressure decorative laminates (HPL). Sheets based on thermosetting resins (usually called laminates). Classification and specifications for laminates less than 2mm thick intended for bonding to supporting substrates.
- **BS 476: Part 6: 1989+A1:2009**
Fire tests on building materials and structures. Method of test for fire propagation for products.
- **BS 476: Part 7: 1997**
Fire tests on building materials and structures. Method of test to determine the classification of the surface spread of flame of products.

Test	Test Method	Attributes	Unit	Result
1 Resistance to Immersion in Boiling Water	Clause 12 of BS EN 438-2: 2016+A1: 2018	Appearance	Rating	5, No Visible Change
2 Resistance to Water Vapor	Clause 14 of BS EN 438-2: 2016+A1: 2018	Appearance	Rating	5, No Visible Change
3 Resistance to Dry Heat	Clause 16 of BS EN 438-2: 2018	Appearance	Rating	5, No Visible Change
4 Resistance to Dimensional Stability at Elevated Temperature	Clause 17 of BS EN 438-2: 2016+A1: 2018	Dimensional Stability		
		(a) Dry Heat	-Longitudinal (%) -Transverse (%)	0.31% 0.15%
		(b) High-humidity	-Longitudinal (%) -Transverse (%)	0.05% 0.10%
5 Resistance to Impact by Large Diameter Ball	Clause 21 of BS EN 438-2: 2016+A1: 2018	(a) Drop-Height (b) Indent Diameter	Millimeter (mm)	No Visible Surface cracking or imprint greater than 10mm
6 Resistance to Staining	Clause 26 of BS EN 438-2: 2016+A1: 2018	Appearance	Rating	5, No Visible Change

We are proud to announce some of our products are now certified by GREENGUARD. Please check with us for products with GREENGUARD certificate.

CERTIFY LAMINATE

Rooted in 'A Reverse',
AREV is designed
with consistency
through every layer.
From surface to core,
front to back, every
side stays true to the
same expression.
